HOUSEHOLD N°

# VARIOUS EXPENDITURES

Clothing, travel, furniture, health,  
transport, insurance and others

**STATEC**

# VARIOUS EXPENDITURES

Clothing, travel, furniture, health,  
transport, insurance and others

STATEC conducts this annual expenditure survey among a number of households in Luxembourg. Given that not all households in Luxembourg can be involved in this survey, a representative sample has been chosen at random to represent all resident households. Your household's answers therefore reflect those of a large number of other similar households in Luxembourg. This is why your participation is so important.

Your data will be treated with the utmost confidentiality: the STATEC law of 10 July 2011 defines a clear framework for the protection of your data. According to this law, your participation is mandatory.

For more information about this survey, please contact STATEC:

**EBM Team**  
**[ebm@statec.etat.lu](mailto:ebm@statec.etat.lu)**  
**(+352) 247 88 420**

# A PRACTICAL GUIDE

This booklet covers subscriptions and frequent expenditures made during the last month as well as other expenditures made during the last 6 and 12 months. The latter are expenditures of all household members on clothing, furniture, household equipment, medical care, transportation, travel, sports, telecommunications, education, personal care, insurance, domestic services and others.

## Who is concerned by this booklet?

- The expenditures of all people living in the same accommodation must be reported in this booklet. A household can also consist of just one person.
- It is suggested that the person with an overall view of household expenditures completes this booklet.

## How to fill in this booklet?

- It is strongly recommended that the household relies on its available bank statements, invoices and receipts to fill in the required information.
- The total price of goods and services purchased/consumed must be entered by place of purchase/consumption: Luxembourg, Abroad or Internet.
- For services, please indicate where the expenditure was consumed. Example: a ticket purchased in Luxembourg for a museum in Paris should be entered in the column "Abroad".
- For products, please indicate the country of purchase. Example: a sweater purchased in Luxembourg should be entered in the column "Luxembourg".
- The amount of expenses must be entered in euros.
- If a purchase is made in another currency, the household is invited to convert the amount in euros.
- An expenditure must only be entered in one of the three proposed periods.
- For second-hand products (products that have previously been used by another person), please enter the total amount per category.

If you have any further question, the interviewer will be glad to help you.

# RECURRING EXPENDITURES - LAST MONTH

Your expenditures relate to the period \_\_\_\_ / \_\_\_\_ / \_\_\_\_ to \_\_\_\_ / \_\_\_\_ / \_\_\_\_

This part concerns recurrent expenses of **ALL household members**: memberships and subscriptions (e.g. for sports, culture, computers, etc.) as well as expenses related to fuel, tobacco, pet food, hygiene and household items in the last month.

If the subscription is not monthly, please convert the subscription amount to a monthly value. (e.g. for an annual fitness subscription of 1000 euros, please divide the amount by 12, i.e.,  $1000:12 = 83.33$  euros per month).

If benefits in kind paid by the employer have been received, please only report the remaining amount to be paid in this booklet.

## 1. Mobility

	Last month
