

The **LIS: Cross-National Data Center** is a non-profit organisation located in Luxembourg. LIS acquires datasets with income, wealth, employment and demographic data from a large number of countries and harmonises them to allow the international research community to run cross-national comparisons.

LIS seeks applications for a

Microdata Expert (2-year contract)

Preferred starting date : as soon as possible

Your mission

The position involves supporting the National Statistical Office of Luxembourg (STATEC) in the production of the national EU-SILC data as well as methodological work for other STATEC surveys:

- Preparation of the survey questionnaire
- Data checking and validation
- Imputation of missing income components
- Gross-net tax calculations
- Computation of sampling weights
- Construction of the final datasets to be transmitted to Eurostat
- Writing of a quality report and documentation of the whole process
- Estimation of mode effect
- Matching income, consumption and wealth

Your profile

- The successful candidate will have an MA in statistics, sociology, economics, econometrics, demography, or another social science.
- Familiarity with the EU-SILC data and the commonly agreed EU indicators is a strong asset.
- Extensive experience working with microdata using standard statistical software (preferably SAS) is required, as is attention to detail.
- Command of spoken English is required. Luxembourgish and French are an asset.

Interested?

Applicants should submit a cover letter and a Curriculum Vitae to Lucie Scapoli, search@lisdatacenter.org, or mail to:
